

再生医療用組換えタンパク質

Recombinant Proteins for Regenerative Medicine

生原基対応
Animal-origin free (AOF)

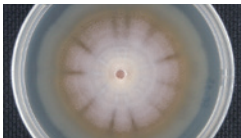

大ロット生産可能
Large batch production

使いやすい溶液タイプ
Frozen form easy to use

Our Strength

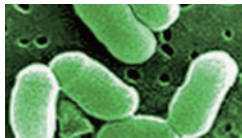

Various host cells

Our unique secretion system

Talaromyces cellulolyticus (Fungus)
Eukaryote

Our unique secretion system

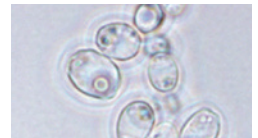

Corynebacterium glutamicum
Gram-positive
Glutamic acid producer

E. coli
Gram-negative

Tobacco (Plant)
Transient expression

Saccharomyces / Pichia (Yeast)
Eukaryote

Product Lineup

E. coli

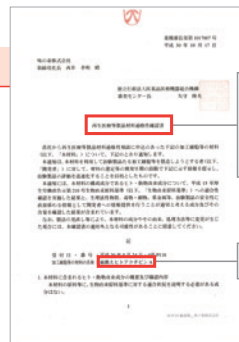

Standards for Biological Ingredients in Japan are not applicable to its raw materials.

臨床研究用試薬

再生医療等製品材料適格性相談
確認書取得済みです!

Activin A

Certificate of material eligibility for regenerative medicine

Our Activin A

C. glutamicum

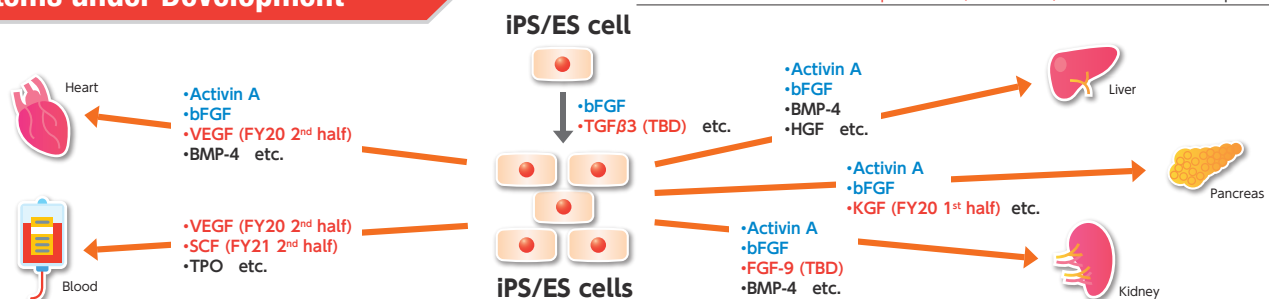

bFGF

Item	Expression System	Product Size	Distributors in Japan
Activin A	<i>E. coli</i>	10 μ g, 50 μ g (0.1mg/ml)	・FUJIFILM Wako Pure Chemical Corporation ・Nacalai tesque, Inc.
bFGF	<i>C. glutamicum</i>	1mg (0.3mg/ml)	

Items under Development

Blue ink : On sale Red ink : Free sample available (Launch sched.) Black ink : Under development

※一般発売までの間、継続的なサンプルの有償提供も承ります We can also offer paid samples continuously until the launch!

皆様のお悩みを
解決します!
We can support
customers who...

生原基対応でお困りの方
need AOF products

バルク製品がご入用の方
need bulk size products

臨床研究用試薬を
より安価に使用したい方
need clinical-grade proteins
with usable price
